EVERY SHADE PROJECTS COMPELLING CURB APPEAL.

Atlas Stone™ boasts a contemporary stacked profile and selection of neutral to bold shades, making it the perfect exterior element for homes ranging from Ranch to Craftsman to Contemporary. Our colors are protected with a Kynar® coating, which means they stay true through the years and the weather.

When choosing an Atlas Stone shade, consider your home's surrounding textures and colors. Neutral colors pair well with bolder, darker siding colors and deeper shades pop powerfully off of neutral-colored siding. These rules of thumb apply whether you use Atlas in main sections or as accents around main entrances or garage doors.
